MADAME SONTAG'S CONCERT LAST From - Undiminished andlences continue to grace these delightful eurertainments. This fact is creditable to the taste and intelligence of our City, while it is no less an evidence of the consummate saill which arranges and the talent which supplies the attractions of the successive programmes. Last night we had some old favorites and some new compositions, which must soon be placed in the same category. Beethoven's overbare to Leonore-so full of the arest soul of this mighty master-and the Lied, with viellacello accompaniment are among the choicest additions. Let us hear them of-Sen. Mademe was in fine voice, and "all went merry as a marriage bell." The next concert is on Friday

NEW COMET .- On Saturday evening last I discovered a bright nebulous spot about two degrees below the Pole star, at a small angle to the eastward. I looked ever my catalogue to ascertain what it was, for ; did not remember of any such spot so near the Pole hip search was fruities, and it struck me that it might be a comet On returning, however, to my telescope to fix to place among some amail stars in the field, the moon had arisen so high as to obliterate them. From that sime until Tuesday evening the weather has been unfavorable for observation. I then found it again, and sook a diagram of its position among the stars. It at once struck me as being in a different field than at first, and last night proved it to be a comet, moving in a south-westerly direction at the rate of three-quarters of a degree per day, at the same time rapidly approaching us. Is is a fine object, condensing at the center to a nucleus, and although at present telescopic, will no doubt be visible to the naked eye in a few days.

ATTACKING THE WRONG MAN .- While the Whig County Convention was in session at the Broadway House on Monday evening, for the purpose of nominating four candidates for the office of Coroner to be voted for at the approaching election, our worshy and efficient Coroner, Dr. John Ives, while the ballot logs for candidates was progressing, was buildly ap proached by a man, in a manner that was far from reflecting credit or botor upon the person. Too man made use of the following lasguage: " Doctor, what do you consider your nomination would be worth? Ist worth five hundred dollars?" The Coroner looked the craven rescal steactly in the eye for a moment, and with a f-cling of disgust for the fellow, promptly reed. "No. I will not pay a cert for the nomination. If the manner in which I have conducted the duties o the Coroner's office, since my appointment to that im portant station by Gov. Hunt, does not warrant this Convention in nominating me, I do not want the nomi-

The extertioner quickly turned on his heel at recelving the marited records, and commenced conversation in the hearing of Coroner Ives, with some assoclated "Strikers," in which he evidently labored hard to impress the Coroner with the belief that the unboly proposition was done for a joke. His character, however, is too well known for the most guittole for a moment to entertain such an ties, and he signally failed in making Coroner Ives believe that the proposition was not made with the view of raising the m m-y. Coroner Ives was supported in that Convention by a majority of its most worthy and influential members, and notwithstanding the nomination would have been gratifying to himself, he had the moral courage (athough it resulted In his defeat) o treat the extertionate proposition of the fellow with that supreme contempt which his conduct deserved. This "Striker" who figured at the Whig Convention to such an unenvisible light to those pos sessed of honesty, and who may he seen daily at a publie house, is said to be in the rabit of frequenting the

MEETING OF THE MISSIONARY SOCIETY, -The American Board of Foreign Missions held a meet irg at the Tract House on Monday evening, and J. Cor. ning, Esq., presided. Mr. Crane, Missionary to Aintab, bad written a letter to the Society, which was read. It gave some interesting and encouraging accounts of that Mission. Christiat ity is spreading there by the sgency of the natives of Aintab. Matters are progressing favorably in Constantinople, and among the Greeks. The Society was also addressed by Dr. Bridgman, Missionary to Chica, in which he gave some particulars about the Mission in Eastern Asia. In Western Asia they are calling for preachers of the Gospel; but in Eastern Asia vast multitudes do not know that there is any Gospel. Probably one hundred millions in China are ignorant that toere is a Gospel. The speaker believed that there were as strong encouragemen's to labor in that, as in any other field in the world. The Missiopary to Mossul, Mr Marsh, gave a history of the favorable state of affairs in Western Asia, where more missioparies are needed.

WEDNESDAY, Oct. 6-P. M. The Stock market, although heavy in

the morning, yet afterward took a decided turn, and continued to improve during the day. The demand for the leading fancies was active, and there is for the present at least a surpension of the downward movement. There is still to disposition on the part of the bears to put out short contracts, and a large portion of the businear of the Board is done for cash. Among the most buoyant stocks was Niceragus, which, under sales of 2,5.0 or 3,000 shares, advanced to 20%, an improvement of 3 per cent on the lowest point of yesterday. There were rumors in the street to account for this rise, of something favorable to this smek having "turned up," the nature of which did pot transpire. Erie was also in fair demand and im. proved 114 P cent, closing at 8428414. Stonlagton advanced | P cent. Norwich recovered 21, P cent from the lowest point; Long leland also 15, P sent; Canton, 14 P cent; Reading, 17, P cent; Ziac, 14 P cent; Harlem, & P cent: Comberland, under active sales, closed at 631/2, after touchle g 62 in the morning Danpain was firm, and Pennsylvania Coal advanced 14 P cent; North American Trust was firm; Mishigan

Central fell off to 10715, and Northern Indiana advanced to 121%, an improvement of 1% if cent; Hadeva River was scarcely so firm, and sold at 71%. The Sond market was dull at the morning Board, but a ter ward improved somewhat. The new Hudson River Roads sold at 91, a dectine of 1 to cent. Gavernment Stocks are scarce and well sustained. The feeling at the Secand Board for nearly all Stocks was quire strong, and It is possible may not be sestained to morrow, but the market was steady at the close.

There is not much doing in Exchange. but the market is steady at 10% @ 10% for good swelling; France 5.13% #5.12%. The increasing business at New Orleans will soon be fell here, in the addition to the amount of bills offering.

In Freights there is no change and not much doing. The disbursements from the Sub-Treasury to-day were again large-\$348,837-making over \$800 000 in the last three days. The receipts were \$110,209. Balazce, \$6,958,190.

There was a decided relief in the Meney market to day, although there is still an active demand. Several of the large houses had more money to-day to lend than they have call for. The current rate on call is ? per cent, although some loads are made on first class collaterale at lower rates. First class short pa. per sees at 6264 P cent, and long at 7 23 P cent Some of the Back offerings to-day were not equal to the receipts. The payments into Banks this mo be very large. In one of the largest banking-house, the bills receivable falling due tals month exceed a militon of dollars. The steamer to-day took \$648.628 in coin.

The reports of the Banks have been celled for for the 4th of Sept. This is earlier than was expected, and before the Banks had begun to prepare for the report. The specie, however, will show better than if the report bore a later date. Tan report will settle the coubts felt as to the correctness of the private court of the specie taken about that time, which made the amount about nice and a half millions, which was considerably below the amount supposed to be in vault

The Mountain Lake Water Co. adverthe for processle for \$250,000 of ten P cent. Bonds reimbursable in ten years. This Company own an exclu sive grant for supplying San Francisco with water for twenty years, and own also the only body of water which can be used for that purpose. The capital is \$500,000, all subscribed in San Francisco. Lieut Gov Purry and Col Wm. G. Wood are in the city for the purpose of negotiating this losn. The stock of the new Market Bank has

already been sold at 2 Poent premium before the bank has commenced operations. The capital has gradually been increased to \$750,000. The building on the south-west corner of Beckman and Pearlets, has been purchased for a bankleg-bouse. The receipts of the Cleveland and Co-

hambon Ralirond for Sept, will exceed \$103,000, which to very large for a road of this length. The receipts of the New-York and New-Haven Road show a large gain over the same month of last year. The figures are :

Passengers. \$67,847 87 Freight. 9,100 00 Total. \$76 948 87
Paid Barlem Road for 64,087 page ngers 4,939 47

The September receipts of the Norwich and Worcester Road are about the same as last year, being 828,873 23 against \$33,846 41 in September, 1851. The Fireman's Insurance Company has

stock for the past six months. The movements in Coston from 1st Sep.

The Railroad from Plattsburgh to Montreal is completed, and will be opened with due ceremonies on the 7th inst. We regret that we were not able to accept the invitation to attend. The Directors of the Albany and Sus-

quebana Railroad Company have passed a resolution providing for the location of the road, and pusting the line under contract early in November. The Franklin Fire Insurance Company,

of Philadelphia, declared a semi annual dividend of 6 cent. The Norristown Railroad has declared a semi-an nual dividend of 3 P cent., payable on demand, clear of State tax. The State Bank has declared a semi-annual dividend of 5 P cent.

The stock of the old Mohawk Bank, at Schenectady, has been retaken, preparatory to the new organization under the General Banking Law, by the present stockholders.

The Boston Courier says :

"The de mand for money for some days past has been somewhat in excess of the supply. Saturday was 'return' day at the banks, in preparation for which, and to provide for the payment of about one cellion of dollars in dividends to be called for to-day,—those institutions on the turne l-st days of the past week called in temporary leans to a large amount, which made money rather 'tight.' A meeting was held at Buffalo on Fri-

day evening preliminary to the organization of a company to construct a railroad from that city to insersect the Allegany Valley R dirond, now being built from Pittsburg, Pa., to the New York State line at Olean The distance from Buffalo to Olean, by the proposed route, is seventy miles, passing through the decriable g villages of the German settlement to Aurora, thence up the valley of Cazenovia through the village of Holland, crossing Cattarangus Creek at Yorkshire to Machine on the west bank of Lime Lake. At this place, 42 miles from Buffalo, is the summit between Lake Eric and the Allegany River, eleven hundred feet above the level of the latter, but overcome at a very gentle ascent, so that only for a few miles will the grade be as much as fortyfive feet to the mile. From this place the line follows the valley of the labus, on a natiform descending grade to the Allega y River at Olean, two hundred feet below the summit level. The cost of the road is compused at swelve thousand doltars a mile.

The Missouri Legislature has adjourned without perfecting the principal measure for which the extra session was called—the disposal of the lands granted by the General Government to aid in the construction of the Pacific Railroad. The two illouses were unable to agree ou the details of the bill, and the

whole subject was postponed to the second Menday to December, when the Lagi-lature will again assemble two weeks in advance of the regular section. An ec was passed transferring to the St Joseph and Havethe Rellroad the lands granted to aid the construction of
